# EON

EON is the linear swing gate operator of QUIKO particularly intended for residential applications. Leaves up to 5m can be automated with ease with this slim motor, which dimensions allow it to be installed in areas where limited space is available. The actuator is self-locking and can be unlocked easily in case of electrical blackout by means of the supplied unlocking key. Moreover, the 24V version can be operated even in absence of electricity by means of the optional backup battery unit. Thanks to the sturdiness of materials used during production, EON is almost maintenance free and designed to last long.

*EON è il motoriduttore lineare per cancelli a battente di QUIKO particolarmente adatto a contesti residenziali. Ante fino a 5m possono essere automatizzate con semplicità con questo motore di piccola taglia, le cui dimensioni ridotte consentono di installarlo anche in presenza di spazi limitati. L'attuatore è irreversibile e può essere sbloccato in caso di assenza di corrente tramite l'apposita chiave di sblocco fornita. Inoltre, la versione a 24V può funzionare anche in caso di blackout elettrico grazie al sistema di backup a batterie optional. Grazie alla robustezza dei componenti utilizzati per la produzione, EON non richiede alcuna manutenzione ed è disegnato per durare a lungo.*

EON est le moteur pour portail a battants de Quiko utilisée particulièrement en installations résidentiels. C'est possible de motoriser des portails avec ventail maxi 5m et grâce a son petit dimensionnes il est possible de lui installer aussi en places où il n'est pas beaucoup de place. Le moteur est irréversible et il peut être débloqué grâce au system de dérouillage manuel utilisant la clé fournie. En plus, le moteur en 24V peut fonctionner aussi sans le électricité utilisant le optionnel batterie. Grâce a la robustesse des matériaux utilises lors la leur production EON a besoin de minimal entretien ainsi que a été désignée pour durer longtemps.

## THE DIFFERENCE IS IN THE DETAILS

EON IS THE STURDIEST GEARMOTOR OF ITS TYPE ON THE MARKET

Oversize deep-seated Seeger rings.

Union between the shaft and endless screw. Our system is one of the strongest on the market for gate motors.

Pressed fit sealed bearing.

Shaft and endless screw made of premium quality high tensile steel for strength and longevity and specially treated for external use and rust prevention.

Bearing housing fitted with hard metal crown to remove bearing and shaft stress and in turn, any wear on the aluminium tube.

Extremely sturdy tube support end ring, made of reinforced composite and giving the highest strength profile possible.

Installation limits per leaf Limiti di impiego per anta Contraintes d'utilisation				
	2 m	3 m	4 m	5 m
